

Label printer XD4T

For double-sided printing also for textile materials

■ Standard □ Option

XD4T

It prints double-sided on textile materials, cardboard labels, pressed tubes, continuous or ready-for-use, as well as on continuous synthetic, paper or cardboard materials. A drive roller enables the materials to be separated from the ribbon and furthermore improves the accuracy and precision in a print.

- No adjustment of print head for different widths of material
- Print rollers for narrow and slim materials
- Operation and control are compatible with the A+ series

Label printer		XD4T
